SKILLS

Backend: • Java • Spring Boot • Spring MVC • Spring Security • JDBC • Data JPA • MySQL • Microservices
Frontend: • React JS • HTML • CSS • Javascript • JSP
Cloud & DevOps: • AWS • Git • Jenkins • Sonarqube

WORK EXPERIENCE

Euronet Services India Pvt Ltd

Software Engineer

06/2024 - Present

- Develop, enhance, and maintain transaction APIs for seamless banking and payment processing. Design and implement a robust bank portal with secure authentication and authorization mechanisms.
- Work with Spring Boot, Spring MVC, and Spring Security to build and secure applications. Optimize database interactions using JPA, Hibernate, and JDBC for efficient transaction processing.
- Collaborate with cross-functional teams, including banking partners and internal stakeholders, to deliver high-quality solutions.

Cognizant Technology Solutions

Programmer Analyst

02/2022 - 06/2024

- Developed and maintained Java-based Spring Boot applications. Managed and implemented changes across multiple services to deliver prompt solutions with minimal defects. Experience in Spring services related to the project and its various functionality.
- Utilized ReactJS for frontend development, creating dynamic and responsive user interfaces.
- Deployed and managed applications on AWS, leveraging cloud services such as EC2, S3, RDS for scalable and reliable solutions.

EDUCATION

Lokmanya Tilak College of Engineering, Navi Mumbai

Bachelor of Engineering - 8.15 CGPA

2017 - 2021

K. J. Somaiya college of science and commerce

Grade XII (HSC) - 64.92%

2017

Sahyadri Vidyamandir

Grade X (SSC) - 90%

2015

PROJECTS

Service Booking Management System

- Developed a service booking portal where vendors can register, upload, and manage their services. Utilized the Spring Framework to build five microservices to handle endpoint requests generated by the client-side UI, which was developed using React JS.

Movie Booking Application

- Developed a movie booking application that allows users to register, log in, and search for released movies. Users can book tickets for the movies they wish to watch. Admins can view all booked tickets and update the availability of pending tickets in the system.

CERTIFICATES

Cognizant FSE Accreditation Program

Microsoft Certified: Azure Fundamentals

AWS Certified Cloud Practitioner

Google Cloud Digital Leader
